Allowed amounts	The amount you owe for covered services is based on the allowed amount. If your participating provider charges more than the allowed amount, you are not responsible for the difference between the billed charges and the allowed amount. If you use an out-of-network provider, you must file the claim and claim payments are sent directly to you. Claim payments are based on the lesser of the treating provider's submitted charge or the amount established by Delta Dental. When services are received from an out-of-network provider, you are responsible for all charges not covered by the dental plan. It is your obligation to pay the out-of-network provider for all services received.
